

# THE PEAT MONSTER

BLENDING MALT SCOTCH WHISKY

Malt Whisky Collection

**For those who love big, rich, smoky-peaty whiskies, this is for you.**

Peat Monster our celebration of Scotch whisky's smoky side, has a new look. Over the years, Peat Monster has proven itself to be prone to evolution, changing appearance and developing its personality. We felt the time was right for another mutation.

A whisky for lovers of complex, multi-layered peaty whiskies. What makes it fit perfectly into the **COMPASS BOX** house style is the balance of richness and subtle sweetness that the casks of Highland malt provide to the smoky-peaty malts of Islay.

This is the great benefit of combining single malts from different distilleries; we are not limited to the produce of one distillery. Like a winemaker blending grape varieties, we can create layers of complexity. PEAT MONSTER in its new livery retains the smoky intensity whilst creating a depth and elegance not seen before. To its original exuberant and elemental character an oilier and creamier style has been added.

As with all our whiskies, several months of marrying before bottling allow the flavours of each of the whiskies to knit together.

You will find a spectrum of seaside and medicinal peatiness, along with kipper-like smokiness, all surrounding a core of fruity malt whisky character. **THE PEAT MONSTER** is a whisky for those who love intensity, flavour and freshness, balance and drinkability. A whisky for those who appreciate the blending of seemingly dissonant elements to create something sublime.

The latest evolution is a subtle one, and we hope you will enjoy teasing out the contrasts.
